

steelseries  
QcK+

#### Product description

The SteelSeries QcK+ is a dream of a mouse pad for every gamer that prefers cloth surfaces. Having been released in November 2004 this mouse pad went through extensive testing by gaming professionals before its release and with their feedback the QcK+ was further developed, to make it the ultimate cloth pad every gamer desired. With the use of high quality cloth material, an optimized texture which guarantees both smoothness and glide and a specially designed non-slippery rubber base this pad blows away the competition and is a great choice not only for the hardcore gamer but also for graphic designers and others who use their mouse for extended periods of time. Because the QcK+ is a super sized mouse pad, it's perfect for people using low sensitivity, high resolutions or designers using two or more monitors. The SteelSeries QcK+ is compatible with all types of mice and is ideal for starters because of its great value for the money.

#### Special features

- \* Smooth cloth surface
- \* Steady rubber base
- \* XXL sized

#### Availability date

November 2004

#### Part number

63003

#### Package contents

Mouse pad

#### Technical specifications

Dimensions: 400 x 450 x 2 mm / 15,7 x 17,7 x 0,1 in

#### System requirements

Gaming grade ball, laser and optical mice.
