| Compatibility List      | Corsair Vengeance and Vengeance Pro Series   |

Each kit includes replaceable red, blue and silver color accent fan covers.

### Overview

Vengeance Airflow is the memory cooling solution that's custom engineered for Corsair Vengeance and Vengeance Pro Series DDR3 memory. It snaps firmly in place, and the 60mm ball-bearing fan efficiently and quietly delivers cool air directly to your Vengeance memory modules. It's an ideal accessory for your Vengeance memory, whether you want to get optimal overclocking results or you just want to help protect your investment. Recommended for increasing overclocking headroom on Vengeance modules 2133MHz and 2400MHz, required for 2666MHz and higher.

Each Vengeance Airflow kit includes a set of modular color accent covers in red, blue and silver so you can match it to your memory, or to your system.

## Features

| Feature   | Benefit   |
|---|---|
| <ul style="list-style-type: none"><li>Large 60mm adjustable speed fan</li></ul>               | The large-diameter design incorporates a ball bearing to minimize vibration and quietly delivers 14.5 CFM at 3,500 RPM. The included cable attaches to a standard motherboard fan header for speed control. |
| <ul style="list-style-type: none"><li>Airflow-optimized housing</li></ul>                     | The fan enclosure is designed to channel cool air across the top sides of the Vengeance modules while drawing hot air away from the socket area.  |
| <ul style="list-style-type: none"><li>Asymmetric, interchangeable mounting brackets</li></ul> | The clever mounting system accommodates multiple motherboard configurations. It helps ensure a firm fit while minimizing potential interference with GPUs or liquid CPU coolers.                            |
| <ul style="list-style-type: none"><li>Replaceable color accent covers</li></ul>               | Each kit includes red, blue and silver so you can match the fan enclosure color to your Vengeance memory or your system.  |

## Tech Specs

- Bearing Type: Ball bearing
- Fan Diameter: 60mm
- RPM: 3500/2500 (using included speed control cable)
- Noise level: 21.0 dB(A) (25 dB(A) max)
- Fan life: 80,000hrs/25 degr C
- Warranty: 2 years
- Voltage: 7-13.2V

# Vengeance Pro Series

Speed, stability and reliability...great for overclocking
