| Intro Phrase / Tagline | Converts your Hydro Series liquid CPU cooler into a GPU cooler for your NVIDIA GeForce® GTX 780 or 780 Ti GPU |
| Product(s) Full Name/Title | Hydro Series HG10 N780 GPU Cooling Bracket and Fan |
| 25-Word Product Description | Hydro Series HG10 N780 allows you to attach a Hydro Series CPU cooler (not included) to your NVIDIA GeForce® GTX 780 or 780 Ti for better cooling and quieter operation. |
| 50-Word Product Description | The Hydro Series HG10 N780 allows you to attach a Hydro Series CPU cooler (not included) to your NVIDIA GeForce® GTX 780 or 780 Ti for better cooling and quieter operation. It installs quickly and easily with only a screwdriver. It can reduce your GPU's temperature by up to 45° C. |
| 100-Word Product Description | <p>The Hydro Series HG10 N780 allows you to attach a Hydro Series CPU cooler (not included) to your NVIDIA GeForce® GTX 780 or 780 Ti for better cooling and quieter operation. It installs quickly and easily with only a screwdriver. It can reduce your GPU's temperature by up to 45° C, and your GPU's automatic temperature control will work with the incredibly quiet included blower fan.</p> <p>The HG10 bracket cools not only your GPU's main processor, but VRAM and VRM, too. This can extend the life of your GPU, and give you more overclocking headroom. And with the extra bonus of quieter operation, once you've upgraded your GPU to liquid cooling, you'll never want to go back.</p> |
| Product Features | <ul style="list-style-type: none"> • Allows you to attach any Corsair Hydro Series CPU cooler to your GPU • Compatible with NVIDIA GeForce® GTX 770, 780, 780 Ti, Titan, and Titan Black reference design cards • Reduces GPU temperatures by up to 45° C • Most GPUs will work perfectly with the included blower fan for quieter operation • Cools the main GPU processor, VRAM, and VRM |
| | Box Contents (NO CPU COOLER INCLUDED) <ul style="list-style-type: none"> • HG10 N780 cooling bracket • 70x25mm Blower Fan • Mounting hardware • Detailed installation guide |
